PUBLIC NOTICE

PUBLIC NOTICE – FAILURE TO SUBMIT REQUIRED DRINKING WATER REPORT ON TIME

The City of Waskom public water system (PWS ID TX1020003) is required by the Texas Commission on Environmental Quality (TCEQ) to submit a Drinking Water Quality Operations Report (DLQOR) each quarter. During a recent compliance review, TCEQ determined that the required report for 1st Quarter 2026 was not submitted by the required deadline.

The report has since been submitted to TCEQ, and the City has taken steps to improve its reporting procedures to help ensure future reports are submitted on time.

This violation was an administrative reporting violation only. It did not affect the quality or safety of your drinking water, and there is no need to boil your water or take any other corrective action.

For more information, please contact:

Jacob Tune
Water Superintendent
City of Waskom
Phone: (903) -687-3374

Please share this information with all people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and
